I like simple, but doesn't show much creativity.

I like the concept of a wave...reversed out in white outline in a solid circle. I can not draw, but that was the quick, rough thought behind the below icons. Would need to work on the wave. Not sure if applicable, but thought to market to the Maui businesses...maybe.

Colors are not right but what about the top reflects a mountain color and the bottom an ocean color? Middle triangles could be more curved to reflect a rolling wave? Font just for placement but not right.

Looks like too much like a tennis ball.
