**clever, cost effective
data communications**

- > TasmaNet business-grade internet and data communications provide customers with connectivity and networking options with proven speed and reliability across multiple locations and hundreds of users, including hard-to-reach areas. The unique TasmaNet infrastructure network allows us to do this without compromising quality, speed or reliability.

Ask us about additional business services such as managed network services, server hosting, wireless point-to-point links, Ruckus wireless LAN, Co-location and CCTV services to see how we can provide a full business communications package for you.

These solutions are detailed in our Business Services brochure or can be found on our website.
